

Creating a world where everyone can raise children with confidence

In order to secure the future of their children and their expanding potential as they grow,
many parents and guardians want to do everything they can for their children.

However many also feel that raising children is expensive.

Tokyo 018 (Zero One Eight) Support provides a 5,000 yen monthly payment to
seamlessly support the growth of all children.

It aims to create a society where people feel hopeful about raising children and
where children's smiles can be seen everywhere.
